Justice Hall rendered a decision on are ay in the case of James Rankin, loward Spear. The case was one in

whi h Rankin brought suit to recover eight dollars alleged to have been lost in card playing at Spear's place on Glenwood avenue. Smith E. Perry appeared for Rankin and David Spiro, of Newark, represented Spear. Judgment was rendered against the latter to the amount of eight

-Dr. J. J. H. Love, President of the Montclair Gas and Water Company, who was present at the meeting of the Township Committee on Wednesday night, took occasion to say a few words about electric light. He said that the Company were ready to make a proposition to the town whenever the Committee were ready to receive it. To a question as to the relative cost between the two lights, Dr. Love replied that he was not at present prepared to state anything definite in answer

-Members of the Montclair minstrel troupe are decorating the town with their fancy colored show bills. The members of this troupe desire to state to the people of Bloomfield that they are not in any way connected with a company who gave an exhibition in Montclair last week They also state that strict order will be pre served. They have a reputation to maintain, having received numerous invitations to appear at other places, including among them several private residences of firstclass Montclair families.

-William Flannery, a young man well known in Bloomfield, where he was born and brought up, died at the Rosevelt Hospital New York, on Monday. The remains were brought to the residence of his brother Thomas Flannery, and the funeral service was held on Wedness at the church of the Sacred Heart. The interment took place in the Catholic cemetary. Mr. Flannery had recently been employed as a boatman on the Hudson river, and had been ill for about five months. Dropsy was the immediate cause

-Mr. T. E. Hayes has been interviewing the property owners on Broad street as far north Bay avenue, in order to ascertain how they regarded the running of the street railroad along that thoroughfare. Mr. Hayes was requested by the officials of the company to do this. He reports that the enterprise is very favorably regarded by a large majority of the residents along the street. Consents have been obtained and at present there seems to be no obstacle in the way, and the indications are that the line will be running by the first of next July as promised by the Com-

-Johnny Holloway, a boy about 9 years of age whose parents died some time ago and left him in care of his aunt, Mrs. Sullivan, who resides in the rear of Dodd's livery stable, will be taken to the State reform school at Jamesburg. Justice Hall made out the commitment, on the affidavit of Officer Smith, the charge being that of vagrancy and unruliness. Complaint is made that there are several other boys ranging in age from 10 to 13, who are fast developing into regular vagrants, and it is the intention of the authorities to impetitors for reserved seats will be have them committed unless they mend

-A meeting of the Essex County Build ng and Loan Association was held last Tuesday evening. Mesers. 1. Henderson Geo. Petersen, J. S. Gallagher and Jas. I Hampson were elected a board of directors for the ensuing year. Mr. Hampson was elected to fill the place of Henry Rollroughout the township for several piller who resigned. The sum of \$1,500 which was put up at auction, was secured by Mr. John Powers who bid 5 per cent. Members of this association speak very highly of the efficient manner in which the offices of treasurer and secretary are filled by Mr. C. L. Seibert and Mr. F. W. Lang-

stroth, respectively. -Mr. Causbrook complains that the criticisms about the gas lamps in the West End are unfair, and do great injustice to him and his assistants. He states that during this season of the year the great difference in temperature between the nights and days affects the quality of the gas. There is an instrument at the gas works where those who desire to test the candle power of the gas may do so for themselves. The lamplighters are strictly enjoined to earry with them an instrument for cleaning the burners. "Brother John" as his friends call him, does all in his power to please, and he requests that all

Y. M. C. A. Notes. -The foot-ball team of the Orange Y. M C. A. play every Saturday afternoon on the Glenwood avenue grounds.

complaints be made to him personally.

-Mr. Yatman has just returned from his Evangelistic visit to Joliet, Ill., and stated that in addition to the 300 and more converts, there was such absorbing interest that at the farewell meetings, after a half hour's appeal, the citizens gave nearly twelve thousand dollars toward the erection of a fine building for the Y. M. C. A. He leaves for Evanston, Ill., and from there goes to St. Louis for union

As will be seen by reference to the advertisement, the diagram for the Association Course tickets will open at the rooms next Monday morning, at 7 o clock. Only a limited number can be accommodated with seats and t e rule of "first come first served' will be adnered to. Tickets are now for sale by members, and at the rooms, which will be exchanged for reserved seats if presented at the rooms after Monday morning.

The German class will meet at 7;30 instead of 8 o'clock next Wednesday evening, in order to give all an opp rtunity to attend the evangelistic service at 8

o'clock. The lesson will be the written exercise assigned for last week.

James Scoville of Brooklyn has conducted services every night this week and Sunday afternoon last at four o'clock, at which time 243 were present. A large choir rendered the music, and has added much to make the meeting enjoyable. At the Sunday afternoon meeting Messrs Pinney and Bliss of Montclair were present, the former presiding at the organ while the latter played the cornet Frank Smith also sang a solo. The meetings are open to all at Dodd's Hall, every night at 8 o'clock, except Sunday when it is held at 4 o'clock.

Lodges and Societies.

-The ladies of Bloomfield who are interested in the bazaar to be held under the auspices of the Knights of Pythias of Essex County, are at work on a very handsome silk quilt, to be offered for sale at

-The rank of page was conferred at the meeting of Eureka Lodge K. of P., on Tuesday evening. -Next Tuesday evening the members

of Eureka Lodge K. of P., will visit Nonpariel Lodge, of New York City. -The efforts of G. D. Baker of K. of H. Grand Lodge, to discourage banvueting of the grand officers on the occasion of their visit to a subordinate lodge, meets with

Edison's Phonograph.

the hearty approval of many of the mem-

bers of the order.

A machine that is intended to take the place of private secretaries and shorthand writers generally, will be put on the market next month. It is the perfected phonograph of the wizard of Menlo Park. The new machine will be smaller than e ordinary type writer, and will be sold at retail for about \$100. The Edison Company has a factory in Bloomfield. where the machines are being made. The company claims that the machine will reproduce the voice so clearly and accurately that the words cannot be misunderstood. The owner of the machine merely has to talk into it as he would into a telephone, and when he is through his typewriter can ungrind his remarks and materialize them on paper.

The public may have a chance to buy two kinds of phonographs. The American Graphophone Company is also preparing to get out machines to take the place of stenographers. This company was organized in Washington six months ago, and is working under the patents of Alexander G. Bell and Sumner Taintor. The Edison Company think the other company's machine may be an infringement of the Edison phonograph.

State Items.

The undertakers of Burlington county have organized a Funeral Directors' Protective Association. The main object is to secure a blacklist of people who do not pay their funeral expenses.

H. H. Davis, of Morristown, has just completed a tombstone bearing an inscription a little out of the common order of such things. The stone was ordered by A. D. Salmon, who lives at Drakesv lle, and was put up in the Succasunna burying-ground last week. The inscription reads: "In memory of Charles H Salmon, who was born Friday, Sept. 10, 1858. He grew, waxed strong and developed into a noble son and loving brother He came to his death the 12th of October, 1884, by the hand of a careless drug clerk and two excited doctors, at 12 o'clock at night, in Kansas City."

The Pennsylvania Railroad Company has been experimenting for some time with an automatic whistle, the object of which is to give the signal at grade crossings whether the engineer is awake or asleep. The device is a very simple one, consisting simply of a bar or lever con necting with the whistle, and extending down to within an inch of the track. At a point 600 yards from the crossing a projection is placed, which, striking a gainst the lever, starts the whistle. Should the engineer be asleep, the shrill note of the whistle directly over his head would undoubtedly awaken him.

School Shoes-School Shoes We make a specialty of Mi-ses, Boys and Youths School Shees. Youths' button and lace shoes made

in Newark-all leather, sizes 11 to 2, only \$1. Boys shoes, button and lace, Newark make, \$1.20 and \$1.50. Solid leather all through. You can find almost everything in heels, spring heels, button and lace shoes in the lower grade or in the very finest for boys and girls at our large shoe store.

Carriages may be ordered at 9.45 P. M.

Trap Rock is the Best Material in America for Macadamizing Roads.

'In some Europe in countries vehicles with narrow tires pay heavy toll, while broad tires go tree. A new village ordinance of Medina makes it an offence for a load weighing over 3500 pounds to be drawn upon any macadamized, payed or improved street on a wagon with tires less than four inches in width. The penalty of violation is \$25. It would greatly benefit country roads if more broad tires were used, and if the width between the wheels on different vehicles were not so uniform as at present. Broken Stone for sale in any quantity
